## 1. Overview of the Entitlement Offer

### 1.1 Summary

The Entitlement Offer is a fully underwritten non-renounceable entitlement offer to Eligible Shareholders of 1 New Share for every 4.5 Shares held as at the Record Date at an issue price of \$0.09 (9 cents) per New Share (**Issue Price**) to raise approximately \$7 million before costs and expenses.

The Entitlement Offer is non-renounceable, which means that to the extent that any entitlement under the Entitlement Offer is not taken up by any Eligible Shareholder prior to the Closing Date, their entitlement will lapse and they will not receive any benefit.

Eligible Shareholders will not be entitled to apply for additional New Shares in excess of their entitlement.

No brokerage fees are payable by Eligible Shareholders who exercise their entitlement.

The choices available to Eligible Shareholders in respect of the Entitlement Offer are described in Section 2.

The Entitlement Offer is currently scheduled to close at 5.00 pm (Melbourne time) on 3 July 2024.

### 1.2 Eligible Shareholders

Unless the Company otherwise determines, the Entitlement Offer is being made under this Offer Booklet and the Offer Announcement and the Entitlement and Acceptance Form will only be made available to those Shareholders (**Eligible Shareholders**) who:

- (a) are registered as a holder of Shares as at the Record Date;
- (b) have a registered address on the IDT share register that is in Australia or New Zealand, or is a Shareholder that IDT otherwise determines is eligible to participate;
- (c) are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds Shares for the account or benefit of such persons in the United States); and
- (d) are eligible under all applicable securities laws to receive an offer under the Entitlement Offer without a prospectus or other disclosure document or any lodgement, filing, registration or qualification.

Shareholders who are not Eligible Shareholders are **Ineligible Shareholders**.

IDT is of the view that it is unreasonable to make an offer under the Entitlement Offer to Shareholders outside of the above jurisdictions having regard to:

- (a) the number of Shareholders outside of those jurisdictions as a proportion of total Shareholders in IDT;
- (b) the number and value of the New Shares that would have been offered to those Shareholders outside of those jurisdictions; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

### 1.3 What is the entitlement of an Eligible Shareholder?

The number of New Shares to which you are entitled under the Entitlement Offer is shown in the personalised Entitlement and Acceptance Form which accompanies this Offer Booklet. In calculating each Eligible Shareholder's entitlement, fractional entitlements to New Shares have been rounded up to the nearest whole number of New Shares. Eligible Shareholders can subscribe for all, or part, of their pro rata entitlement under the Entitlement Offer. Detailed instructions on how to accept all, or part of, your pro rata entitlement are set out in Section 2.

Please note that if you choose not to take up your pro rata entitlement, your percentage shareholding in IDT will be diluted.

#### 1.4 No trading of entitlements

Entitlements under the Entitlement Offer are non-renounceable and will not be tradeable on the ASX or otherwise transferable. Shareholders who do not take up their entitlement in full will not receive any value in respect of that part of the entitlement that they do not take up.

#### 1.5 Underwriting of the Entitlement Offer

The Entitlement Offer is fully underwritten by the Lead Manager, subject to certain conditions and events of termination, pursuant to the terms of the Underwriting Agreement. Any New Shares which remain unallocated following the issue of New Shares under the Entitlement Offer will be taken up by the Lead Manager (and their sub-underwriters) on the terms and conditions of the Underwriting Agreement.

The Lead Manager will receive an underwriting fee of 3% and a management fee of 3% of the Entitlement Offer proceeds.

IDT must also reimburse the Lead Manager for its reasonable costs and expenses (plus GST if applicable) incurred by the Lead Manager in connection with the Entitlement Offer.

Under the Underwriting Agreement, IDT has agreed to indemnify the Lead Manager (and their related bodies corporate and representatives) against any losses it suffers in connection with the Entitlement Offer.

#### **2.4 No minimum subscription**

There is no minimum subscription for an Eligible Shareholder under the Entitlement Offer.

#### **2.5 No cooling off rights**

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your application once it has been made.

#### **2.6 Refunds of excess application monies**

Any application monies received for more than the number of New Shares issued to you will be refunded as soon as reasonably practicable following the close of the Entitlement Offer. No interest will be paid on any application monies. Payment of any refund will be made by cheque and mailed to your address as last recorded in IDT's register of members.

#### **2.7 If you do nothing**

If you do not apply for Shares pursuant to the Entitlement Offer, your entitlement under the Entitlement Offer will lapse and your percentage ownership in IDT will be diluted because the issue of New Shares to other Eligible Shareholders and the Lead Manager (and their sub-underwriters) under the Entitlement Offer will increase the total number of Shares on issue.

### **3. Risk Factors**

IDT's activities are subject to a number of risks which may impact future financial performance and the market price at which New Shares trade. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, others are outside IDT's control and cannot be mitigated. Therefore, investors who acquire New Shares may be exposed to a number of risks. Broadly, these risks can be classified as risks that are general to investing in the share market and risks specific to an investment in Shares and IDT's underlying business.

This list is not exhaustive and Eligible Shareholders should read this Offer Booklet in its entirety before making an investment decision. Eligible Shareholders should also have regard to their own investment objectives and financial circumstances and should consider seeking appropriate independent investment advice before deciding whether to invest in the New Shares.

#### **3.1 Risks specific to IDT**

##### **(a) Customer acquisition and retention**

Continued growth in revenue and profitability of the Company depends on a number of factors, including its ability to attract new customers on a sufficiently profitable basis, and retaining and increasing revenue from existing customers. Revenue growth is particularly dependent on the Company's reputation and ability to offer specialised expertise and manufacturing capabilities, on top of the provision of consistently high-quality customer service. The Company's ability to increase its customer base is likely to be subject to limits and there is a risk that a failure to implement, or implement successfully some or all of its strategies, could adversely affect the Company's operating and financial performance.

##### **(b) Regulatory approvals and compliance risks**

The Company operates in a highly regulated industry. The laws and regulations that govern the development, manufacture, distribution and sale of medicines are subject to constant review by governments and responsible authorities. Any change to the rules for the industry may have a positive or negative effect on the Company. Additionally, the Company is subject to ongoing regulatory audits to maintain its Good Manufacturing Practices certification. Should the Company fail to pass any of these audits, it may lose its certification, which will have a material negative impact on its business.

In addition, the research, development, manufacture, marketing and sale of products using the Company's technology are subject to varying degrees of regulation by a number of government authorities. The Company may from time to time be required to seek regulatory approvals to bring certain products and programs to market in the various jurisdictions in which it operates. Any delay or failure of the Company to obtain any necessary approvals could impact adversely the Company.

##### **(c) Competition**

The industry in which the Company operates is subject to competitive pressures, both domestically and internationally. These competitors may have different cost structures and capabilities, which may provide them a competitive advantage over the Company. Further, some of the Company's offshore competitors may not be subject to the same rules and regulations under which the Company is required to operate. Depending on the circumstances, this may put the Company at a significant disadvantage or advantage. Other competitive risks faced by the Company include price competition, competitor marketing campaigns, and mergers or acquisitions by competitors and possible new entrants to the Company's industry. The risks may have a negative impact on the Company's growth and financial performance.

##### **(d) Changes in technology**

The Company operates in an industry in which technology evolves rapidly with medical advances. This means treatment preferences and trends are also constantly changing, and this could impact on customer demands for the Company's offerings. To maintain its growth, the Company must ensure it remains at the cutting edge

of drug manufacturing technologies and its ability to do so may be constrained by factors including its available capacity, resources and capital to invest in innovation and design. This may adversely impact on the Company's financial performance.

(e) **Intellectual property**

Maintenance and protection of the Company's existing intellectual property rights, including its patents, and, where appropriate, obtaining new patents and securing of rights to other new intellectual property, is important to preserving the Company's competitive position and asset values.

The granting of a patent does not guarantee that the rights of others are not infringed or that competitors will not develop competing intellectual property that circumvents such patents. The Company's success depends, in part, on its ability to defend its patents and other intellectual property rights and operate without infringing the rights of other third parties.

The Company provides no guarantee that any patents that it may own, control or licence now and in the future will afford the Company adequate protection of its intellectual property, its projects or will have commercial application.

(f) **Cyber security risks**

The Company retains a significant amount of sensitive customer and third-party information. These parties have high expectations regarding the protection of their information. Additionally, the legal and regulatory environment surrounding information security and privacy is increasingly complex and demanding. Failures or breaches of data protection systems can result in reputational damage, regulatory impositions and financial loss, including claims for compensation by customers or penalties by telecommunications regulators or other authorities. While the Company exercises due care in protecting customer data, it is possible that these measures will not be enough to prevent unauthorised access to its systems and technologies.

(g) **Loss of key personnel**

The Company's ability to be productive, profitable and competitive, and to implement its growth strategy, depends on the continued employment and performance of senior executives and management. The Company's performance also depends on its ability to attract and retain skilled workers with the relevant industry and technical experience. The loss of key personnel or the inability to attract additional personnel may have an adverse impact on its financial and operating performance.

(h) **Risk of delay and continuity of operations**

The Company may experience delays in achieving some or all of its milestones, including but not limited to research and development, obtaining regulatory approvals, or sales and revenue generation. The Company is also dependent on, amongst other things, its technology, key personnel and IT systems. Any disruption or delay to any key inputs could impact adversely the Company.

(i) **Contractual risks**

As a party to contracts, the Company may face claims of breach of non-compliance by a contracting party. No assurance can be given that all contracts will be fully performed by all contracting parties or that the Company will be successful in securing compliance with the terms of each contract by the relevant third party.

(j) **Liability claims**

The Company may be exposed to liability claims, including but not limited to those that could arise in connection with its provision of services, such as if they are provided in fault and/or cause harm to its customers. As a result, the Company may have to expend significant financial and managerial resources to defend against such claims. If any such claim against the Company is successful, the Company may be fined or

sanctioned and its reputation and brand may be negatively impacted, which could adversely affect its business prospects, financial condition and results of operation.

The Company may be exposed to claims from employees, including those who have left the Company or may leave it in future for unfair dismissal.

(k) **Access to capital and debt**

The Company's ability to fund future growth and profitability may be affected by its ability to access funding from equity investors, credit markets and other financial institutions. This access is dependent on several factors, such as the Company's financial performance, but may also include factors that are outside its control, such as general economic and financial conditions. There is a risk that the Company may be unable to access debt or equity funding when required on favourable terms, or at all.

(l) **Liquidity**

There can be no guarantee that there will be an active market in the Company's shares traded on ASX. There may be relatively few or many potential buyers of the Company's shares on ASX at any time. This may increase the volatility of the market price of the Shares and may affect the price at which Shareholders are able to sell their Shares.

**3.2 General risks**

Eligible Shareholders should be aware that there are risks associated with any investment listed on the ASX that are outside the control of the Company. There are various risks that may significantly impact the Company, its performance and the price of its Shares.

The value of the Company's shares may rise above or fall below the Issue Price, depending on the financial condition and operating performance of the Company.

(a) **Economic risks and market conditions**

Factors, such as, but not limited to, global economic conditions, political instability, stock market trends, interest rates, exchange rates, inflation levels, consumer spending and employment rates, industrial disruption, environmental impacts, international competition, taxation changes and legislative or regulatory changes may all have an adverse impact on the Company's revenues, operating costs, profit margins and Share price. These factors are beyond the control of the Company and the Company cannot predict how they will impact its business.

(b) **Changes in legislation and government regulation**

Government legislation in Australia or any other relevant jurisdiction, including changes to the taxation system, may affect future earnings and relative attractiveness of investing in the Company. Changes in government policy or statutory changes may affect the Company and the attractiveness of an investment in it.

(c) **Insurance risks**

Although insurance is maintained by the Company, no assurance can be given that adequate insurance will continue to be available to the Company in the future on commercially acceptable terms. In addition, the Company may incur liabilities to third parties (in excess of any insurance cover or statutory reserves) arising from negative environmental impacts or other damages or injury. There is a risk of an occurrence of a significant event leading to losses that are not fully covered by insurance.

(m) **Force majeure risk**

Force majeure events, such as riot, war, invasion, act of foreign enemies, hostilities (whether war be declared or not), act of terrorism, infectious disease outbreaks, pandemics, requisition or compulsory acquisition by a

governmental or competent authority, earthquakes, flood, fire or other physical natural disasters and strikes or industrial disputes at a national level, may adversely affect the operations of the Company.

(d) **Unforeseen risk**

There may be other risks of which the Directors are unaware at the time of issuing this Offer Booklet which may impact the Company, its operations and/or the valuation and performance of the Company's securities.

(e) **Combination of risk**

The Company may not be subject to a single risk. A combination of risks, including any of the risks outlined in this section could affect the performance valuation, financial performance and prospects of the Company.

(f) **Market conditions**

Equities market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Equities market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) changes in interest rates, exchange rates and inflation rates;
- (iv) changes in investor sentiment and perceptions in local and international stock markets;
- (v) the demand for, and supply of, capital; and
- (vi) geo-political conditions such as acts or threats of terrorism, war, military conflicts or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(g) **Speculative investment**

The above list of risk factors should not be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Offer Booklet.

Therefore, the New Shares to be issued pursuant to this Offer Booklet carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Shares.

Eligible Shareholders should consider that an investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares pursuant to this Offer Booklet.

## **4. Further Information**

### **4.1 Taxation**

Taxation implications of participating in the Entitlement Offer will vary depending on the particular circumstances of individual Eligible Shareholders. Eligible Shareholders are advised to obtain their own professional taxation advice before making a decision in relation to the Entitlement Offer.

### **4.2 This Offer Booklet is not a prospectus**

The Entitlement Offer is being conducted in accordance with section 708AA of the Corporations Act (as modified by ASIC Corporations (Non-Traditional Rights Issue) Instrument 2016/84). In general terms, section 708AA relates to rights issues by certain companies that do not require the preparation of a prospectus or other disclosure document. Accordingly, the level of disclosure in this Offer Booklet is less than the level of disclosure required in a prospectus.

As a result, in deciding whether or not to accept the Entitlement Offer, you should rely on your own knowledge of IDT, refer to disclosures made by IDT to the ASX (which are available for inspection on the ASX website <https://www.asx.com.au/> and on IDT's website at <https://en.idtaus.com.au/>, in particular, the Offer Announcement released to ASX on 4 June 2024) and seek the advice of your financial or professional adviser.

### **4.3 Holding statements and trading of New Shares**

Eligible Shareholders will be provided with a holding statement, which will set out the number of New Shares allotted to them under this Entitlement Offer. It is your responsibility to determine your holding of New Shares before trading to avoid the risk of selling New Shares you do not own. To the maximum extent permitted by law, IDT disclaims any liability to persons who trade New Shares before they receive their holding statements, whether on the basis of confirmation of the allocation provided by IDT or the Share Registry or otherwise, or who otherwise trade or purport to trade New Shares in error or which they do not hold or to which they are not entitled.

### **4.4 Treatment of Ineligible Shareholders**

This Offer Booklet and the accompanying Entitlement and Acceptance Form are being sent only to Shareholders with registered addresses in Australia and New Zealand, or to Shareholders in other jurisdictions where IDT is satisfied that it is lawful to do so. IDT is of the view that it is unreasonable to extend the offer to other Shareholders having regard to their small number and the value of New Shares which would be offered to them and the cost of complying with the legal requirements and requirements of the regulatory authorities in those overseas jurisdictions.

The information in this Offer Booklet has been prepared to comply with the requirements of the securities laws of Australia. To the extent that you hold Shares on behalf of another person resident outside Australia, it is your responsibility to ensure that any participation (including for your own account or when you hold Shares beneficially for another person) complies with all applicable foreign laws and that each beneficial owner on whose behalf you are submitting the personalised Entitlement and Acceptance Form is not in the United States and not acting for the account or benefit of a person in the United States.

This Offer Booklet does not constitute an offer in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Entitlement Offer or the New Shares, or otherwise permit the public offering of the New Shares, in any jurisdiction other than Australia and New Zealand.

The distribution of this Offer Booklet and the accompanying Entitlement and Acceptance Form (including an electronic copy) outside Australia and New Zealand may be restricted by law. If you come into possession of this Offer Booklet, you should observe such restrictions and should seek your own advice on such restrictions. Any non-compliance with these restrictions may contravene applicable securities laws.

## **4.5 Foreign Shareholders**

The distribution of this Offer Booklet in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Offer Booklet outside the above jurisdictions should observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. No action has been taken to register or qualify the New Shares or to otherwise permit an offering of New Shares outside Australia.

Payment by BPAY® or EFT for New Shares will be taken by IDT as a representation by you that there has been no breach of any such laws.

### **(b) New Zealand**

The New Shares are not being offered to the public within New Zealand other than to existing Shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the Financial Markets Conduct Act 2013 and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2021.

This document has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority Financial Markets Conduct Act 2013 (New Zealand). ## **4.6 Custodians and nominees**

The Entitlement Offer is being made to all Eligible Shareholders. IDT is not required to determine whether or not any Eligible Shareholder is acting as a nominee, trustee or custodian or the identity or residence of any beneficial owners of Shares. Where any registered holder that qualifies as an Eligible Shareholder is acting as a nominee for a foreign person, that registered holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Entitlement Offer is compatible with applicable foreign laws. For the avoidance of doubt, custodians and nominees that hold on behalf of a beneficial holder in the United States may not submit an Entitlement and Acceptance Form on behalf of such beneficial holders in the United States.

## **4.7 Privacy**

By submitting an Entitlement and Acceptance Form, you will be providing personal information to IDT (directly or through the Share Registry). IDT collects, holds and will use that information to assess and process your application, administer your shareholding in IDT and to provide related services to you. IDT may disclose your personal information for purposes related to your shareholding in IDT, including to the Share Registry, IDT's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to the ASX and regulatory bodies.
