Quarterly Unaudited Revenue Hits Two-Year High

Highlights:

- **Total unaudited revenue jumped 70% pcp to \$5.2M – the highest since IDT commenced its strategic transformation program**
- **Significant increase in returning customers demonstrates high satisfaction, more predictable revenue profile, and improved profitability.**
- **IDT secured \$6.8M in new contracts and submitted \$24.7M in proposals in the quarter**

IDT Australia Limited (ASX: IDT) (IDT or the Company) is pleased to provide the following update for the three months ended 30 September 2024 (**1QFY25**) with an encouraging start to FY25, with total unaudited revenue for the quarter ended 30 September 2024 (1QFY25) reaching a two-year high.

Preliminary unaudited revenue for the quarter increased by 70% compared to the previous corresponding period (**pcp**) totalling \$5.2 million – the highest since IDT embarked on its strategic transformation program.

Paul McDonald, the Chief Executive Officer of IDT Australia, said:

"This quarter's performance puts us on track to exceed our FY24 total revenue of \$14.1 million. Notably, we are also seeing a substantial amount of work coming from returning customers. This trend speaks to the quality of our work, the establishment of more predictable revenue streams for the business and our unique capabilities that supports IDT's market leadership position."

37 Proposals* Submitted in 1QFY25

*Total Value of Proposals \$24.7M

About IDT

IDT (ASX:IDT) is an Australian pharmaceutical manufacturing company based in Boronia, Victoria, Australia. The Company has extensive experience in the development and production of high potency and high containment pharmaceutical products for local and international clients. IDT's facilities are cGMP compliant and are regularly audited by the US FDA and Australian TGA. With an experienced team of specialists within world-class facilities, IDT provides a full-scale service for new drug development and scale-up, commercial active drug manufacture as well as a variety of oral and injectable finished drug dose forms.

Performance of the Three Verticals

Advanced Therapies: Standout performance with a 642% pcp increase in revenue for the quarter to \$1.4 million, driven by Sanofi Australia contracts and growing demand for Antibody Drug Conjugates (ADC) and messenger RNA (mRNA) technologies.

Specialty Orals: Relatively stable revenues for the quarter with a 2.3% pcp increase to \$1.5 million. This vertical, largely associated with the medicinal cannabis market, is navigating the clearance of oversupply from non-GMP compliant manufacturers. The future for Specialty Orals is bright once this old inventory is drawn down and as demand for psychedelics continues to grow.

Active Pharmaceutical Ingredient (API) Manufacturing: Revenue declined 36.1% pcp to \$761K due to the timing and cycling of orders. This vertical plays a key role for IDT's integrated offering where an API order is transitioned to the Specialty Orals or Advanced Therapies verticals to make the finished drug. The outlook for the API vertical is positive given that this business accounted for 61%, or \$15 million, of new business proposals IDT submitted in the latest quarter.

Outlook

IDT secured \$6.8 million in new contracts for the September quarter, pleasingly all from returning customers. This repeat business typically yields improved profitability as customers transition from development work to higher-margin manufacturing contracts.

The material rise in return work also serves to highlight IDT's high customer satisfaction rate as it builds a relatively more predictable revenue business when compared to the past.

The Company submitted 37 customer proposals valued at \$24.7 million, with approximately 60% to existing customers. This growing pipeline, combined with IDT's track record of converting proposals into contracts, supports expectations of FY25 full-year results comfortably surpassing the prior year.
